TECHNICAL SKILLS

- Javascript (React, Vue)
- Java
- Typescript
- HTML5, CSS
- Oracle SQL, MySql, TypeORM
- Node.js

- Nest (Framework for Node.js)
- Github, Git
- GraphQL
- Postico
- Postgres

PROJECTS

Uber-eat-backend : currently working on Github

- NodeJS | NestJS | Typescript | GraphQL | Mailgun | Apollo | Jest | PostgreSQL | TypeORM
- Build data model for User and Restaurant using TypeORM
- Used the same entity for GraphQL and Type ORM to organize code and be readable.
- Created token using JWT with user's id, and confirmed with sending email.
- Build and Implementing a GraphQL Server Using the Apollo Server

Restaurant website Github Demo

- Javascript | React | Framer-motion | react-scroll-parallax | style-component CSS | Google Map
- Created a restaurant website tailored to client needs.
- Implement animation using framer-motion on the motherboard
- Created the customized Google Map for the restaurant location.

Kanban board Github Demo

- Typescript | React | Recoil | React-Beautiful-dnd | style-component CSS
- Built Kanban app being able to drag and drop motion using React-beautiful-dnd.
- Utilized Recoil to share state faster and more flexibly.

Nasa photo website Github Demo

- Javascript | Vue | CSS | Nasa API
- Built a NASA photo viewing web app using the Vue framework using css, html and javascript. Wrote asynchronous code to retrieve photos from NASA's photo API

MoodSPOT Github

- Javascript | Vue | CSS | Node | MongoDB

- Used Vue to build the front-end and store username in localStorage, and used Node.js to build the back-end, store user's answer with mongoDB

Momemtum Chrome app Github Demo
- Javascript | HTML | CSS | Zenquotes API | Pexels photos API | openweathermap API
- Personal dashboard featuring to-do, weather, random quotes and background images from Zenquotes API and Pixels photos API

EXPERIENCES

President of "SAIT Codeshare (SSC)" Club at SAIT
- Founder of the SSC where students share their code to learn from peers and experienced mentors. Responsible for organizing club events, maintaining slack community, and connecting with students and mentors.

EDUCATION

Southern Alberta Institute Technology (SAIT)

Diploma Information Technology - Software Development 2021-2023 — 3.8 GPA
